Question 1:

Create a Model-wise Sales Report showing Units Sold, Revenue, Discount Given, and Return Count by Model Name and Variant. Apply Conditional Styling so models with Return Count > 100 appear in Red. Add Header with NovaTech brand text and report month, Footer with page number. Add prompts for Region and Sales Channel.

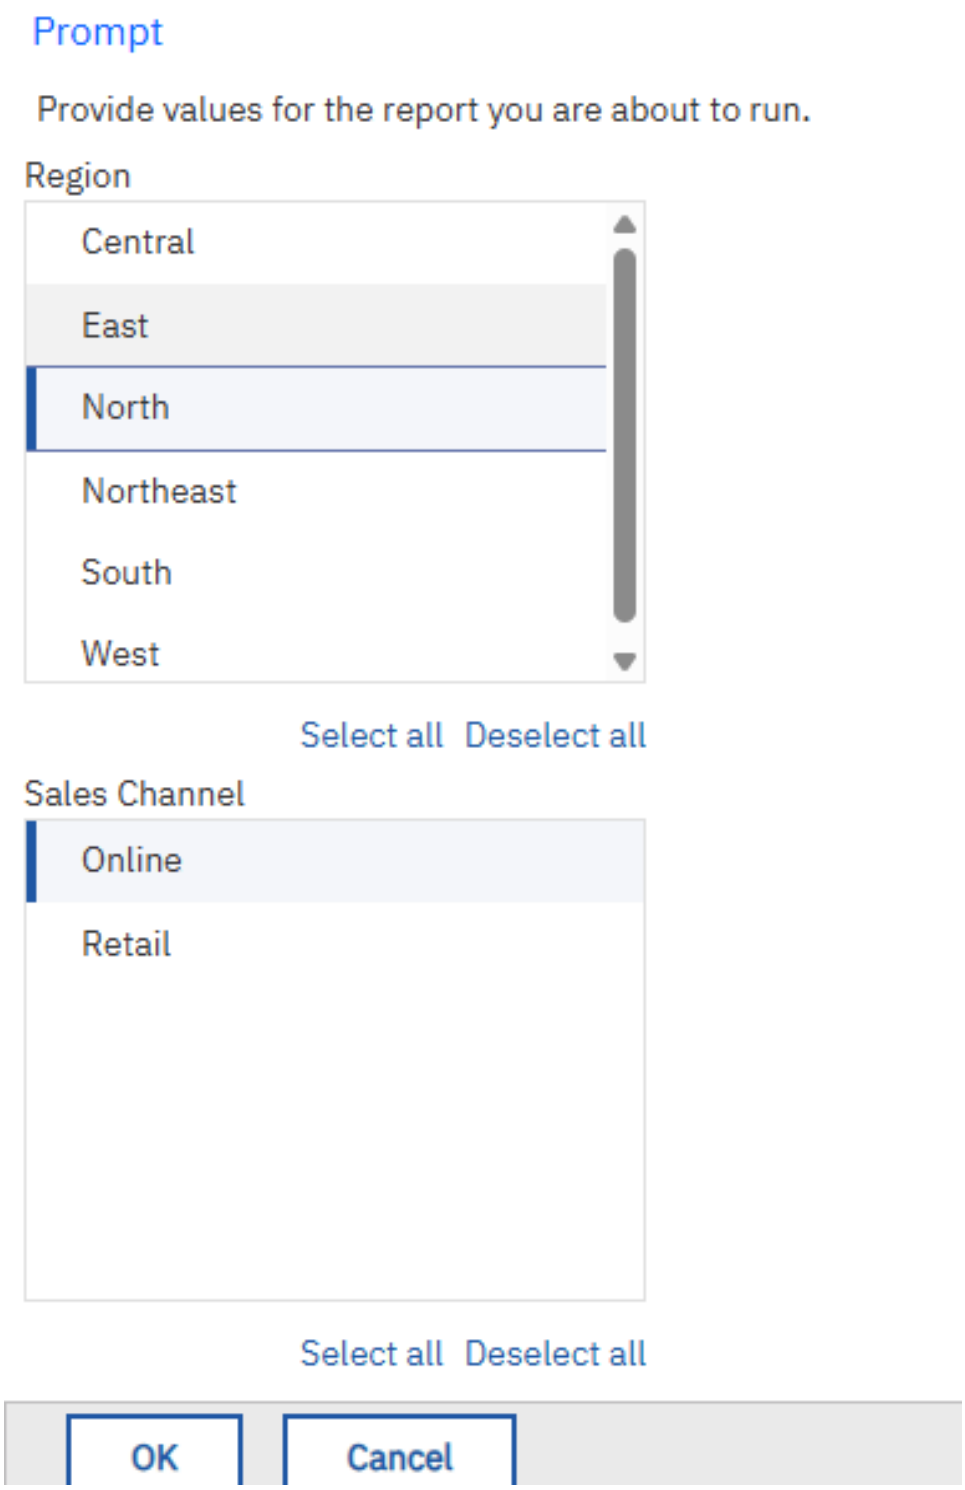
Objective:

To create a report showing sales details by model with formatting and filters.

Steps Performed:

- Open Cognos → New → Report → List
- Add columns: Model Name, Variant, Units Sold, Revenue, Discount %, Return Flag (Sum as Return Count)
- Group by Model Name and Variant
- Apply condition: Unit Sold > 100 → Red color
- Add Header: NovaTech Sales Report + Month
- Add Footer: Page Number
- Add prompts: Region, Sales Channel
- Set font: Century Gothic, Size 11
- Run and Save

Final Output:



NovaTech-SalesReport(March2026)
