Question 2:

Build a Service Center Performance Report listing Issue Type, Average Resolution Time, and Count of Unresolved Issues per region. Apply Conditional Styling: Red if Average Resolution > 7 days, Amber for 4–7 days, Green for < 4 days. Summarize the total unresolved issues and the region with worst performance at the report footer.

Objective:

To analyze service efficiency and unresolved issues.

Steps Performed:

- New → Report → List
- Add: Region, Issue Type, Resolution Time (Average), Service Request ID (Count)

1. 7 → Red
2. 4–7 → Amber
3. <4 → Green

- Group by Region
- Add total unresolved issues
- Mention worst region in footer
- Save report

Final Output:

Service Center Performance Report
